## REFERENCES

- 2024 Fabrication of 2 sets of bladeracks for Vestas new V236 – 15MW Turbines, consisting of 2x 9 pack Seafastning - Vestas
- 2024 Fabrication of Seafastning for extension of Tip end substructure and Tower grillage for He Dreih - CADELER
- 2024 Fabrication of seafastning Substructures and Tower grillages for Baltic Power - CADELER
- 2024 Retro fit existing seafastning for installation vessel Brave Tern – Fred. Olsen
- 2024 De-mobilization and retrofit/Mobilize for USA Revolution Wind - Ørsted
- 2024 Fabrication of bladeracks prototype for the new generation Turbines - Semco
- 2023-24 Fabrication of seafastning for Moray West wind farm, Bladerack substructures and tower grillages - CADELER
- 2023 Prefabrication and installation of new type of blade seafastning onboard Voltaire – Jan De Nul
- 2023 Prefabrication and installation of sea fastning onboard Blue Tern – Fred. Olsen Windcarrier
- 2023 Mobilization of complete seafastning setup onboard Vole Au Vent – Jan De Nul
- 2023 Fabrication of new seafastning setup for US installation vessel – Siemens Gamesa
- 2023 Fabrication of storage towers – Jan De Nul
- 2023 Fabrication of Tip End, Root End, and Adapters - DEME
- 2022 Prefabrication and installation of sea fastening onboard Blue Tern – Saipem.
- 2022 Prefabrication of 7 adapter flanges – Fred Olsen Windcarrier.
- 2022 Prefabrication and Installation of 4 adapter flanges for the HKZ project – Siemens Gamesa.
- 2022 Prefabrication and installation of 700 t. sea fastening for the HKZ project – CADELER A/S.
- 2022 4 adapter flanges – DEME.
- 2021 Prefabrication and installation of 700 t. of sea fastening for the Seagreen project – CADELER A/S.
- 2021 Prefabrication and installation of 10 pcs. of Tween Deck Raisers on board an Eemslift Vessel – Martin Bencher Group.
- 2021 Demobilization of Blade Stack support structure, Mezzanine Decks, Blade Cassettes etc. – Fred Olsen Windcarrier.
- 2021 Prefabrication of a Crane Foundation for a Helia Crane – Nordrep.
- 2021 Prefabrication, installation, and pressure testing of a new Fi-Fi Foam pipe system below Helideck on board Sea Challenger – DEME Offshore.
- 2021 Repairing 3 pcs. of Acid Tanks – Halliburton.
- 2021 Rental of 30 m. Flexible Gangway – Ziton.
- 2021 Prefabrication and installation of new crane column, boom rest, and reinforcement below main deck – JD Contractors.
- 2021 Prefabrication and mobilization of Main Deck reinforcement, Accommodation, extension of Mezzanine Deck, Stair Tower, Platforms etc. – WMO.
- 2021 Mobilization of Blade Racks, Modification of TG, Installation of adapters, NG, Nacelle Yoke, Tower Gripper etc. on-board Sea Challenger – DEME Offshore.

## REFERENCES

- 2021 Demobilization of blade rack top structure for root- and tip end, grillage for Janett and grillages nacelles on board Demes Sea Installer – Siemens.
- 2021 Prefabrication of blade racks for root- and tip end – Siemens Gamesa.
- 2021 Demobilization of various larges winches and spooling gear on Boulder – JD Contractor.
- 2021 Prefabrication of a boatlanding for J/U Wind – Ziton.
- 2020 Fabrication of additional gangway sections for DFDS travelers in Port of Frederikshavn – Hytek A/S.
- 2020 Demobilization of blade repair house, rebuilding and mobilization of Sea Fastening for Moray East – Fred Olsen Windcarrier.
- 2020 Prefabrication of upending tool for mono piles to Hornsea 2 – DEME.
- 2020 Prefabrication and mobilization of 650 t. of sea fastening for Triton Knoll – DEME.
- 2020 Demobilization of sea fastening on both Sea Challenger and Sea Installer – Siemens Gamesa.
- 2020 Modification and mobilization of 2 sets of top structure for blade racks for the Borssele 1 & 2 project – DEME.
- 2020 Demobilization of blade racks onboard Blue Tern – Fred Olsen Windcarrier.
- 2020 Demobilization of sea fastening for the East Anglia One project – DEME.
- 2020 New flanges and structure modification on 3 pcs. of adapters – Fred Olsen Windcarrier.
- 2019 Mobilization of TG, NG, BR, blade yoke grillage, nacelle yoke grillage, tower gripper and reinforcement for Hohe See – Fred Olsen Windcarrier.
- 2019 Mobilization of blade racks on Sea Installer and Sea Challenger – Siemens Gamesa.
- 2019 Fabrication of 1,200 t. sea fastening for the Borssele 1 and 2 project – DEME.
- 2019 Fabrication of 200 t. X-girder for the North Western OHVS – Bladt Industries.
- 2019 Fabrication of 200 t. top site for the Bravo Njord FPSO – Bladt Industries.
- 2019 Changing of top flange on 4 adapter flanges for the Yunlin project – Fred Olsen Windcarrier.
- 2019 Fabrication & mobilization of 600 t. sea fastening for the East Anglia One project – DEME.
- 2019 Demobilization of 8 pack – Siemens Gamesa.

## REFERENCES

- 2018 Demobilization of Sea Challengers Arkona Sea Fastening in Vlissingen (NL) – DEME.
- 2018 Fabrication of 500 t. test equipment for the Greater Changhua Offshore Wind Farm in Taiwan – Aarsleff.
- 2018 Fabrication of 4 adapter flanges for the HOHE See project – Fred Olsen Windcarrier.
- 2018 Fabrication of 370 t. sea fastening for the Hornsea project – Fred Olsen Windcarrier.
- 2018 Fabrication of blade racks for the HOHE SEE project – SEAFOX.
- 2018 Fabrication and mobilization of 600 t. sea fastening for the Horns Rev 3 project – DEME.
- 2018 Modification of sea fastening for the Horns Rev 3 project – DEME.
- 2018 Modification and mobilization of sea fastening for the Arkona Project – DEME.
- 2018 Fabrication of 2 pcs. of spudcan extension weight 360 t. – DEME.
- 2018 Fabrication of 270 t. sea fastening for the Borkum Riffgrund 02 project – Fred Olsen Windcarrier.
- 2018 Modification of 2 adapter flanges for the Arkona project – DEME.
- 2018 Fabrication of monopole suspension – Ziton.
- 2018 Modification and mobilization of 8 pack, 140 t. steel, in Oostende – Siemens Gamesa.
- 2018 Demobilization of blade racks, nacelles and adapter rings onboard Sea Installer – DEME.
- 2017 Fabrication and mobilization of cement silo sea fastening – DEME.
- 2017 Fabrication of PGF & TP lifting tool for the Nissum Bredning project – Aarsleff.
- 2017 Repair of cement factory in Indonesian – FL Smidth.
- 2017 Modification of tower grillage for the Galloper project – Fred Olsen Windcarrier.
- 2017 Fabrication and mobilization of 850 t. sea fastening for the Galloper project – Siemens Gamesa.
- 2016 Fabrication of 300 t. sea fastening for the Hornsea OHVS – Bladt Industries.
- 2016 Fabrication of blade racks for Veja Mate project – Siemens Gamesa.
- 2016 Fabrication and mobilization of 600 t. sea fastening for Veja Mate project – Fred Olsen Windcarrier.

## REFERENCES

- 2016 Fabrication of sea fastening for the 1610 ADWEN Autumn campaign – Fred Olsen Windcarrier.
- 2016 Fabrication and mobilization of 260 t. nacelle sea fastening on Brave Tern – Fred Olsen Windcarrier.
- 2016 Fabrication and mobilization of adapter flanges – A&P Group
- 2016 Fabrication and mobilization of adapter flanges on Sea Challenger – A2SEA.
- 2015 Fabrication and mobilization of adapter flanges on Bold Tern – Fred Olsen Windcarrier.
- 2015 Fabrication and mobilization of adapter flanges on Sea Installer – A2SEA.
- 2015 Repair and reinforcement of tower foundation on the jack-up vessel Bold Tern made on deck in Esbjerg – Fred Olsen Windcarrier.
- 2014 Prefabrication and fitting of tower and nacelle foundation on the jack-up vessel Sea Challenger, the foundations was prefabricated in Frederikshavn and transported to Esbjerg by coaster and mobilized in Esbjerg - A2SEA.
- 2014 Prefabrication and fitting new sub structure for helideck to the jack-up vessel Sea Installer – A2SEA.
- 2014 Fabrication and mobilization of sea fastening on Sea Fox 5 – Maersk Oil and Gas.
- 2013 Prefabrication and fitting tower and nacelle foundations on the jack-up vessel Brave Tern – Fred Olsen Windcarrier.
- 2012 Prefabrication and mounting of nacelle foundation, outrigger, tower foundation and steering arm for crane on the jack-up vessel Sea Power – A2SEA.
- 2011 Prefabrication and fitting of sea fastening for Wind Turbines on the barges "UR 96" and "UR 97". On each barge, that can load 6 wind turbines, the sea fastening consists of tower foundations, wing racks and wing rack foundations – A2SEA.

## Cadeler – 2023-24

Fabrication of seafastening for Moray West wind farm, Bladerack substructures and tower grillages

## Ørsted - 2024

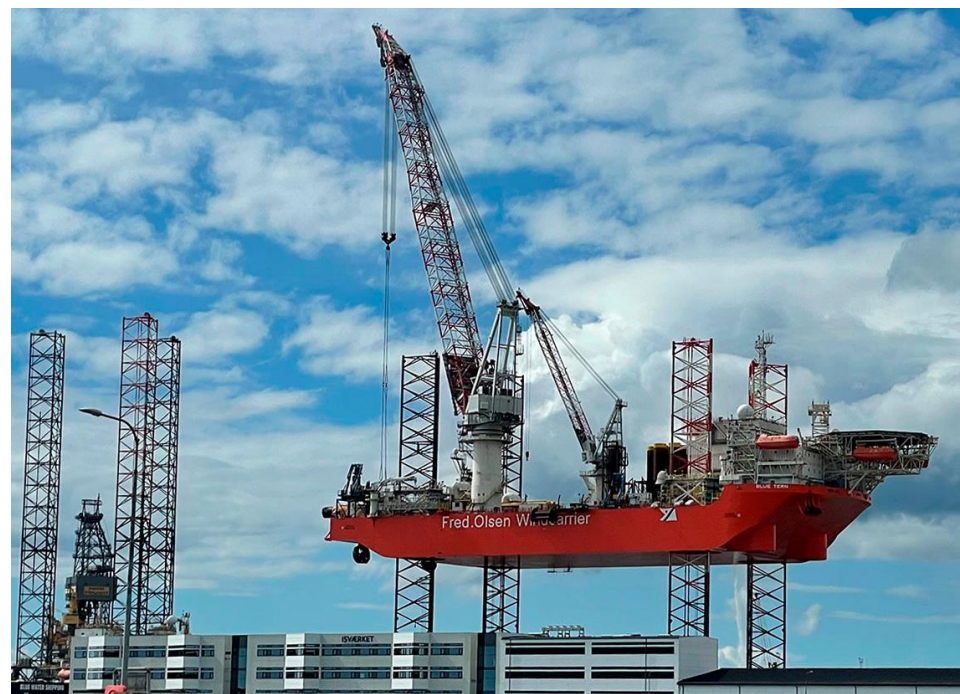

-De-mobilization and retrofit/Mobilize for USA Revolution Wind – Wind Scylla

## Saipem – 2022

– prefabrication and installation of sea fastening for Saipem onboard Blue Tern

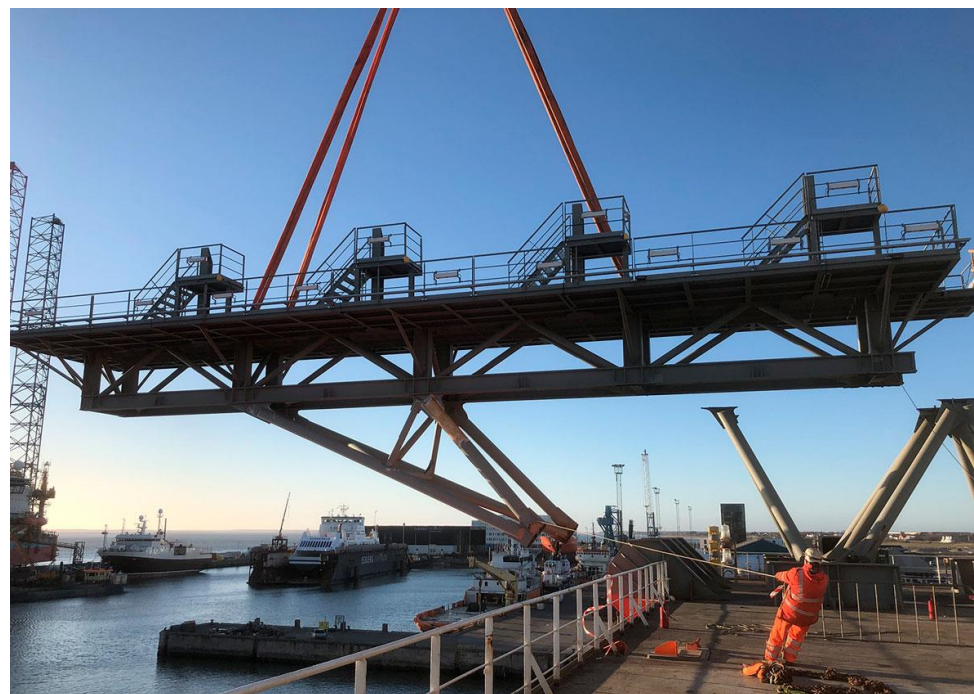

## Fred Olsen Windcarrier – 2022

– prefabrication and installation of a new Boat Landing on Blue Tern

## Cadeler A/S – 2022

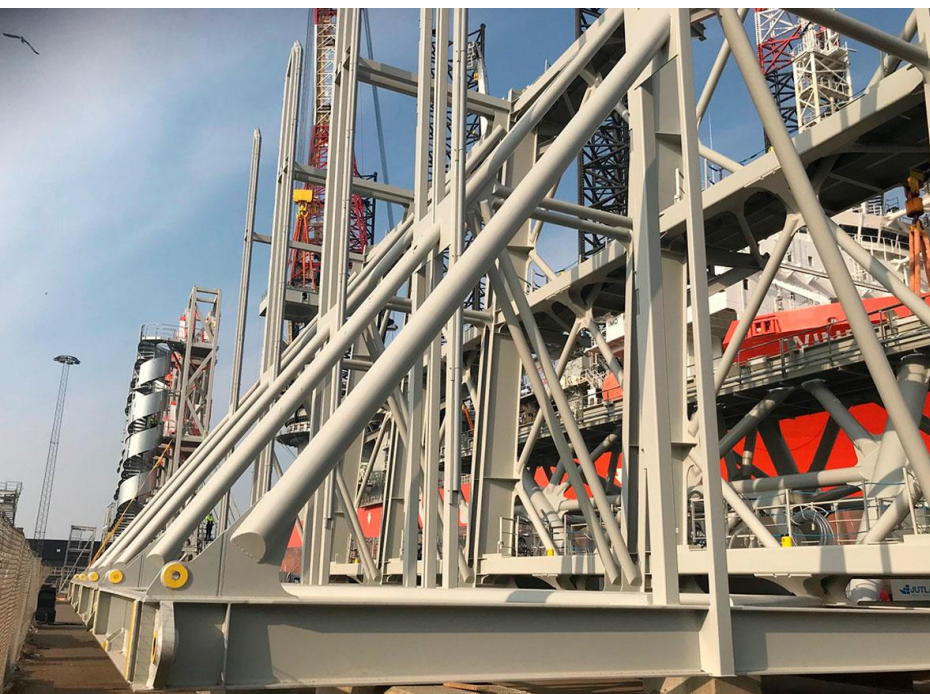

– demobilizing of various sea fastening structures for Wind Orca HKZ project

## Cadeler A/S – 2022

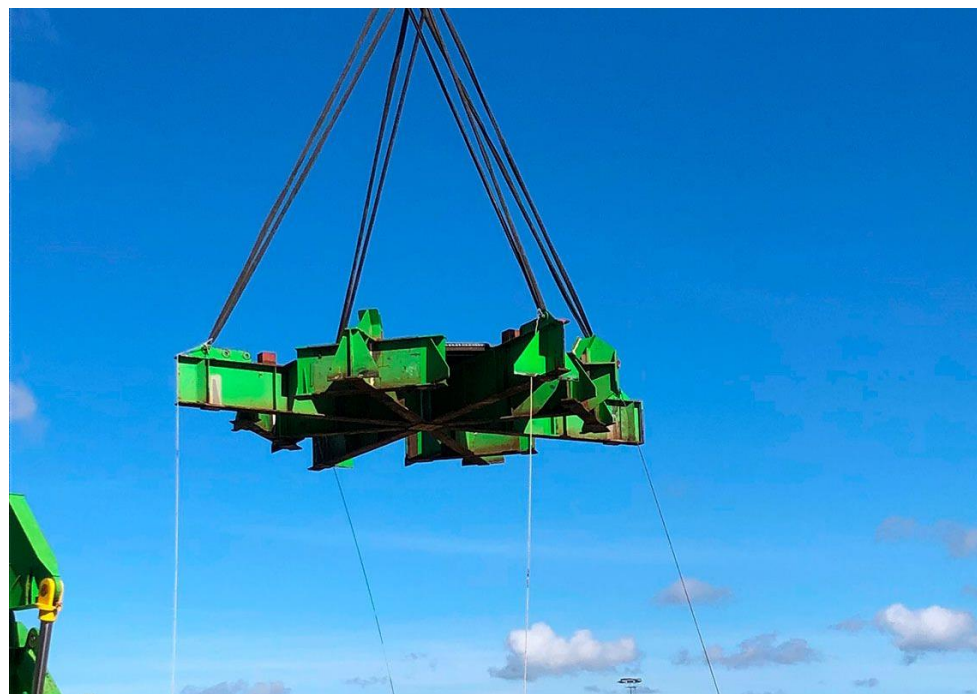

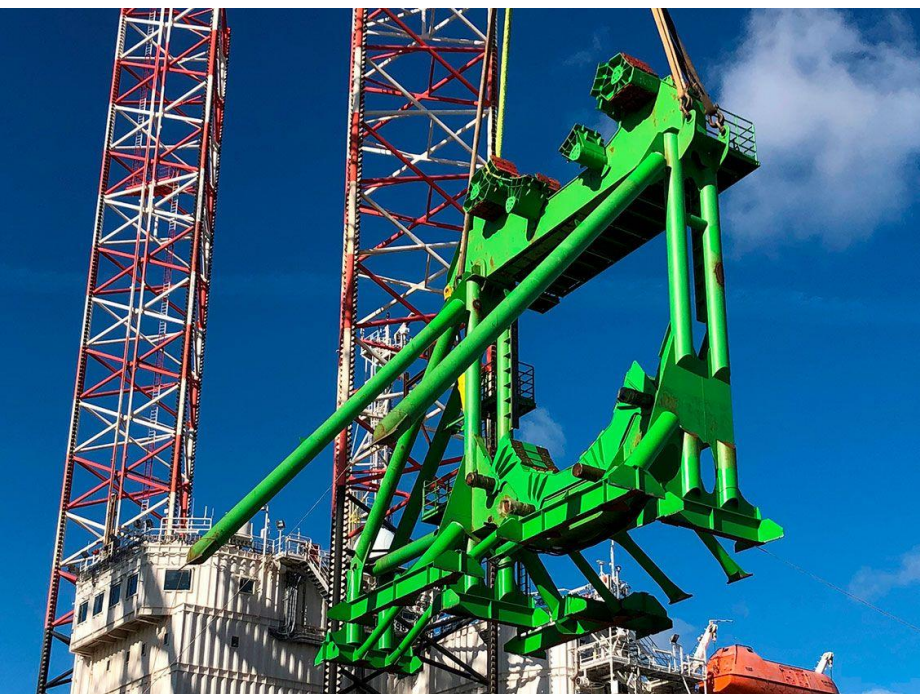

– prefabrication and installation of 700 t. sea fastening for the HKZ project

## DEME – 2022

– demobilizing of various sea fastening structures onboard Blue Tern

## Cadeler A/S – 2021

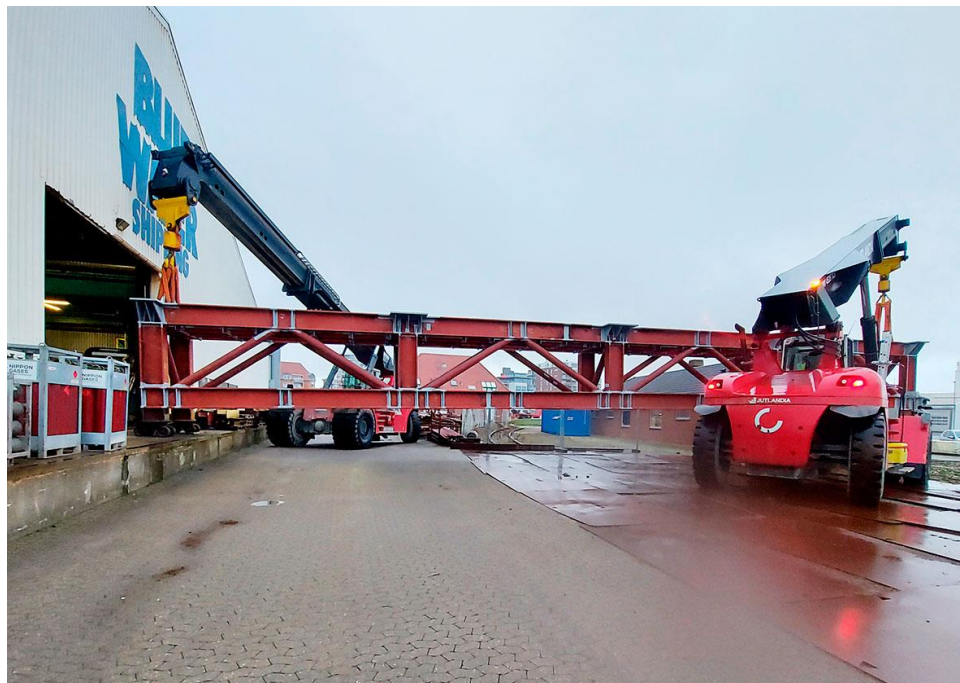

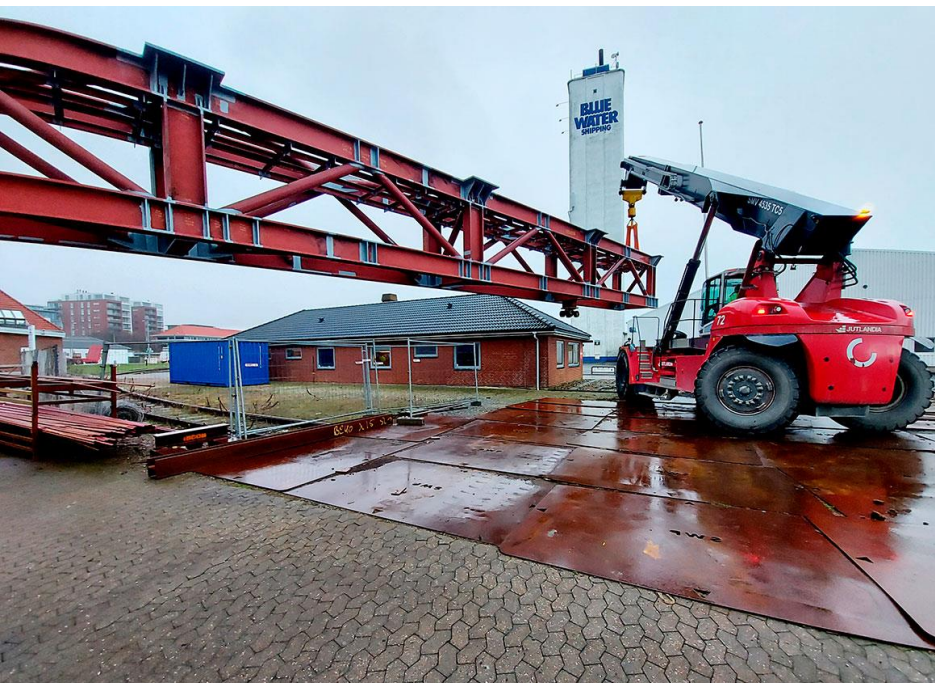

– prefabrication and mobilization of 650 t. sea fastening for Wind Orca

## Cadeler A/S – 2021

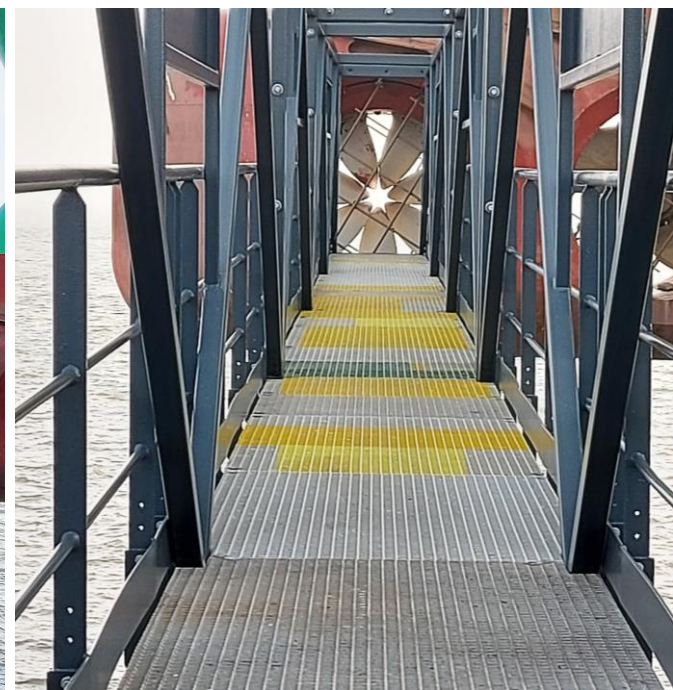

– substructure for Tip End Blade Rack

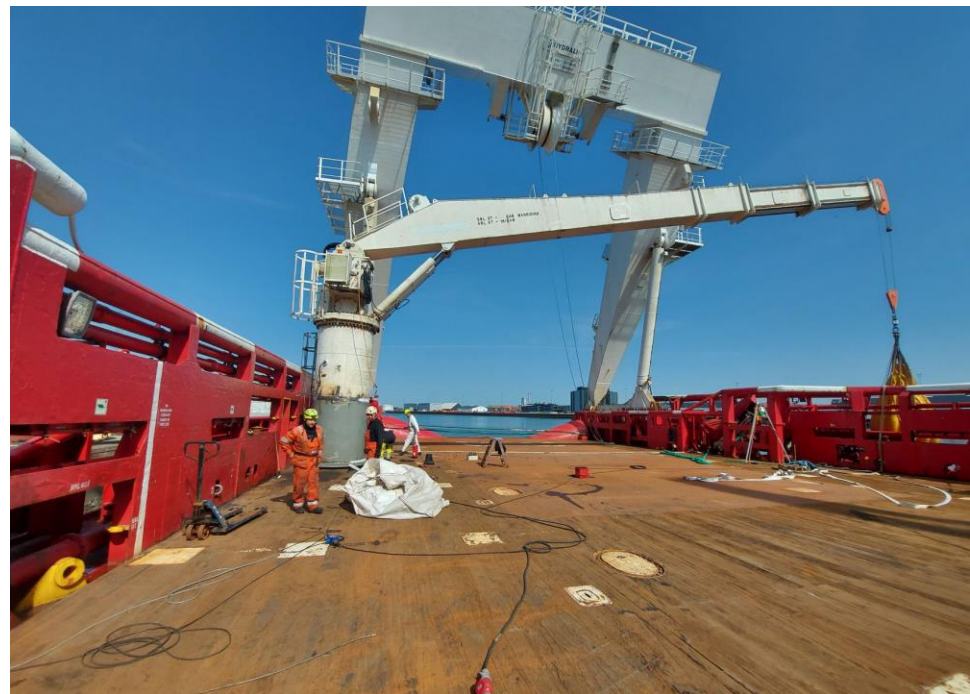

## DEME – 2021

– rental of 30 m Flexible Gangway

## JD Contractors – 2021

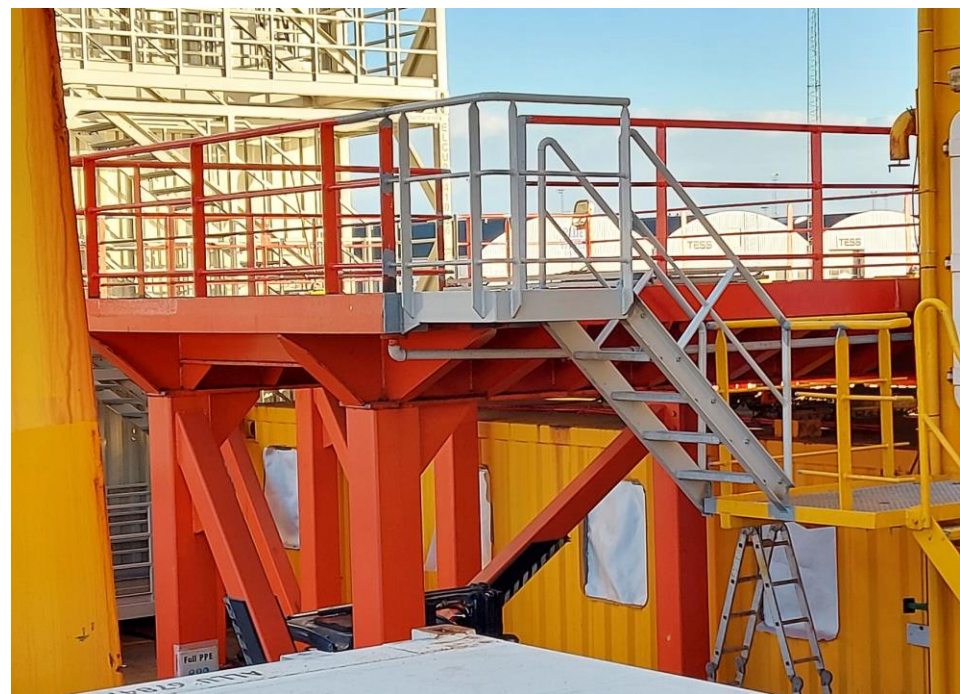

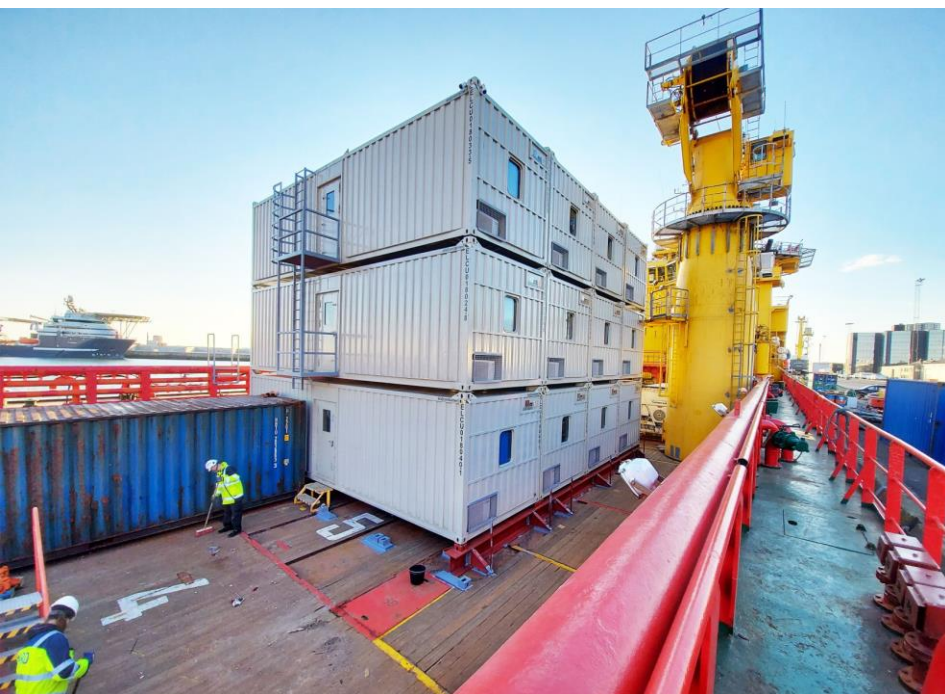

– prefabrication and installation of new Crane Column, Boom Rest, and reinforcement below Main Deck

## World Marine Offshore – 2021

– prefabrication and mobilization of Main Deck reinforcement, Accommodation module, extension of Mezzanine Deck, Stair Tower, Access Platforms etc.

## DEME – 2021

– mobilization of Blade Rack Top structure for Root- and Tip End, Modification of Tower Grillages, Installation of adapters, Nacelle Grillage, Nacelle Yoke, Tower Gripper

## DEME – 2020

– upending tool for mono piles

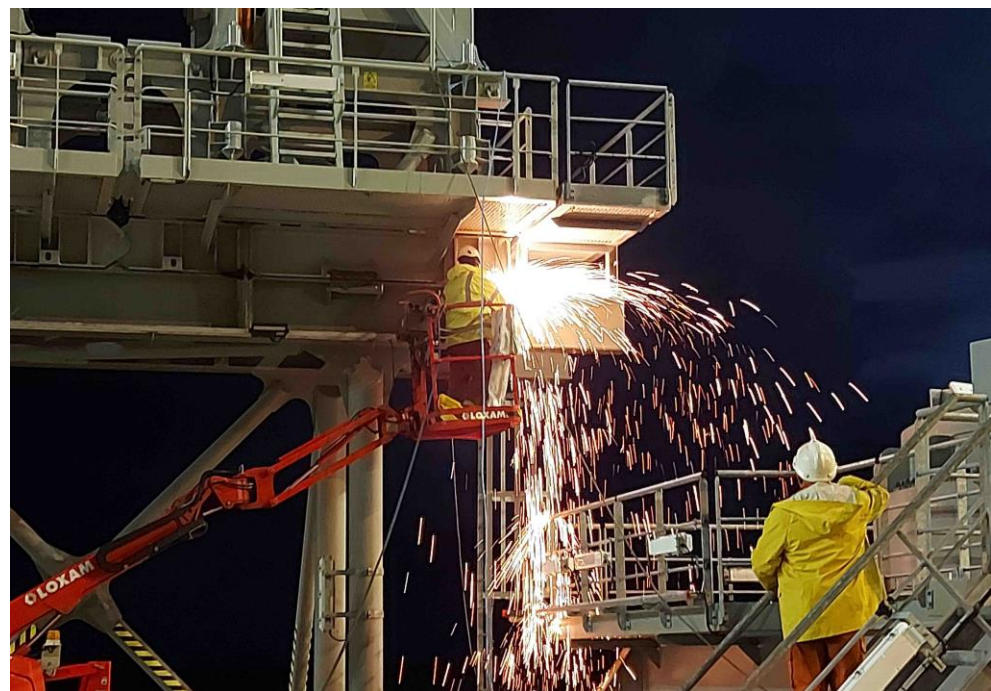

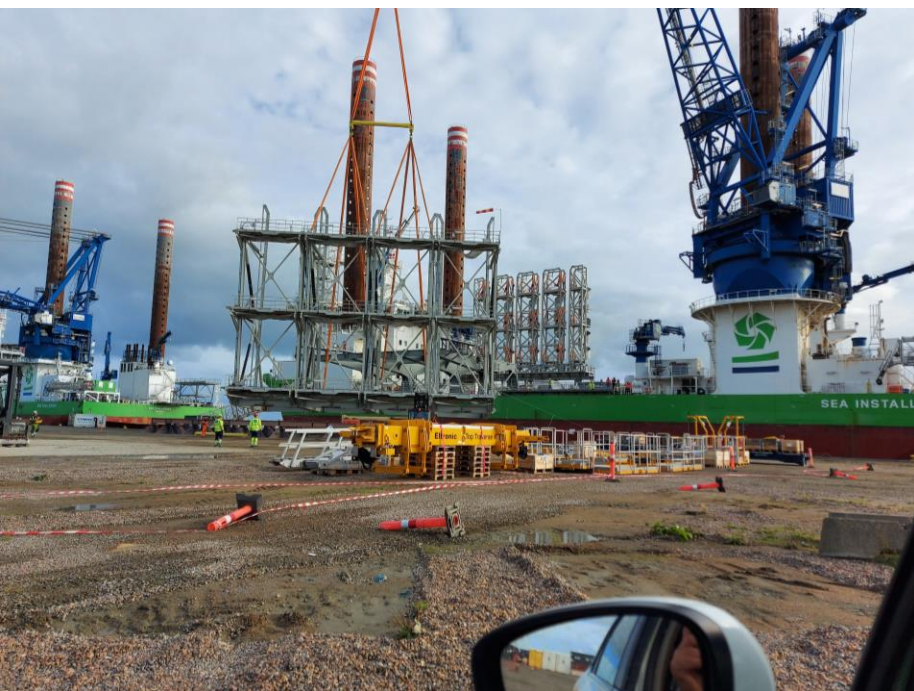

## DEME – 2020

- prefabrication and mobilization of 650 t. various sea fastening for Triton Knoll

## SIEMENS – 2020

- demobilization of root- and tip end on Sea Challenger and Sea Installer

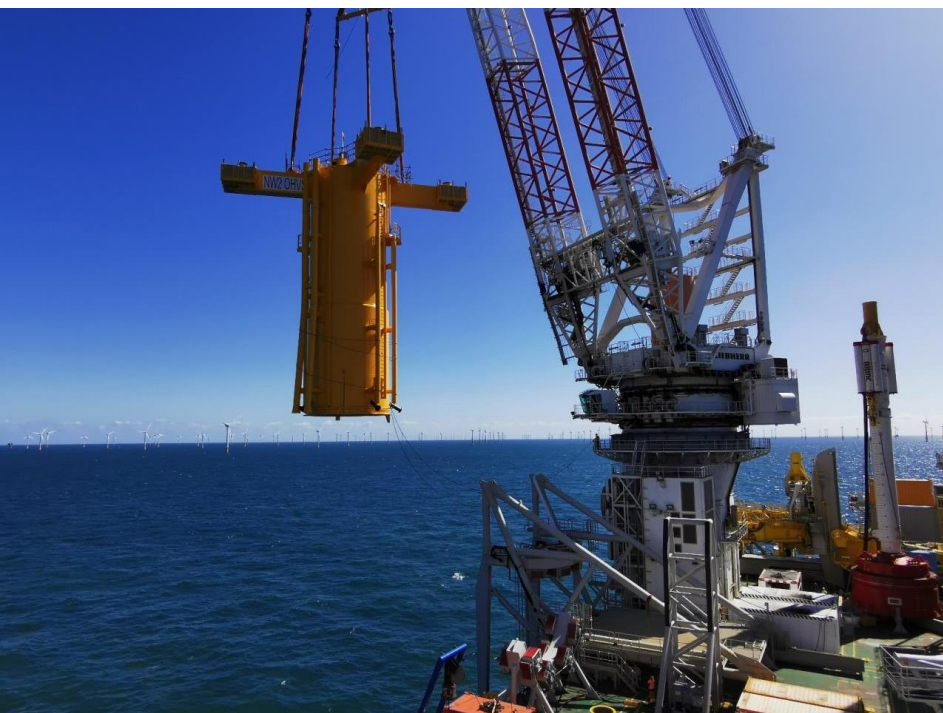

## SIEMENS – 2020

- demobilization of root- and tip end on Sea Challenger and Sea Installer

## BLADT – 2019

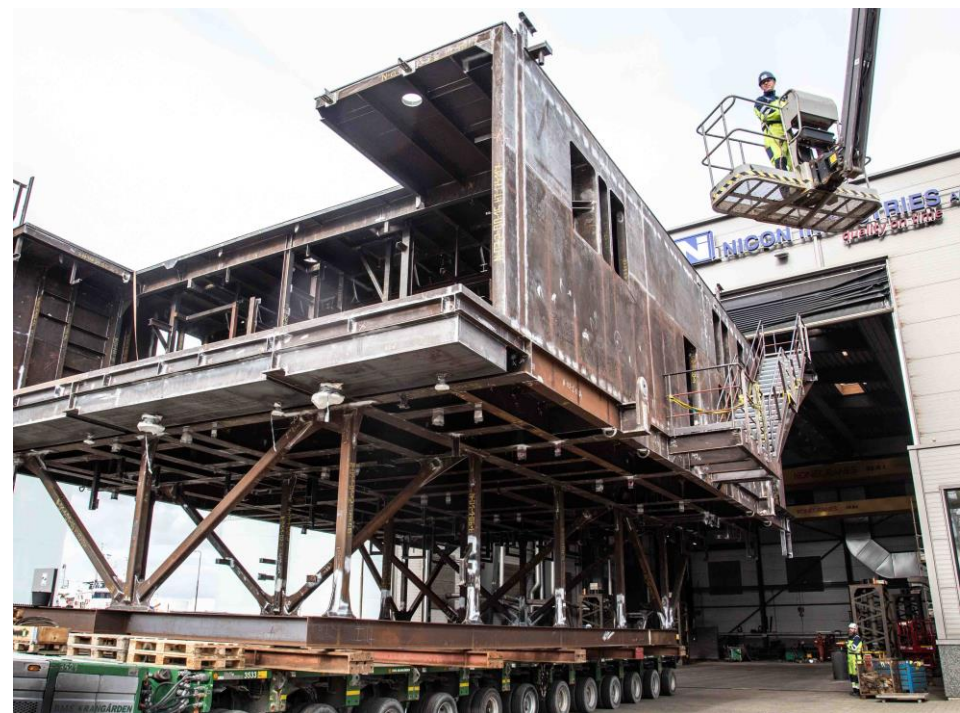

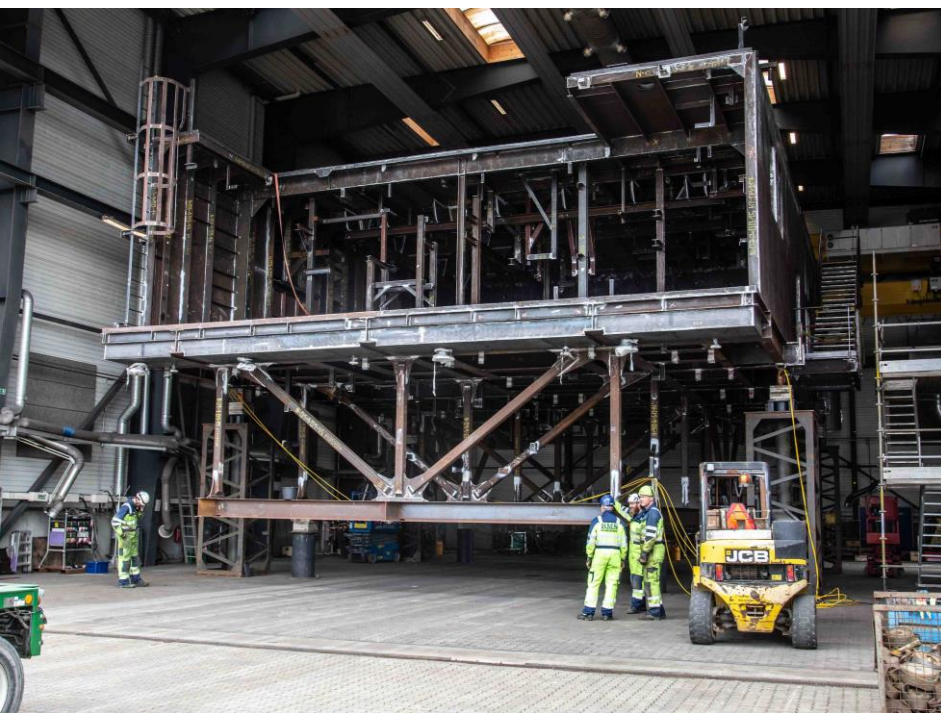

- prefabrication of X-Girder

## BLADT – 2019

- prefabrication of Njord Bravo Module

## AARSLEFF – 2018

- prefabrication of test equipment for the Greater Changhua offshore wind farm in Taiwan

## FRED OLSEN WINDCARRIER - 2018

- prefabrication of 370 ton sea fastening for the Hornsea Project

## FRED OLSEN WINDCARRIER - 2018

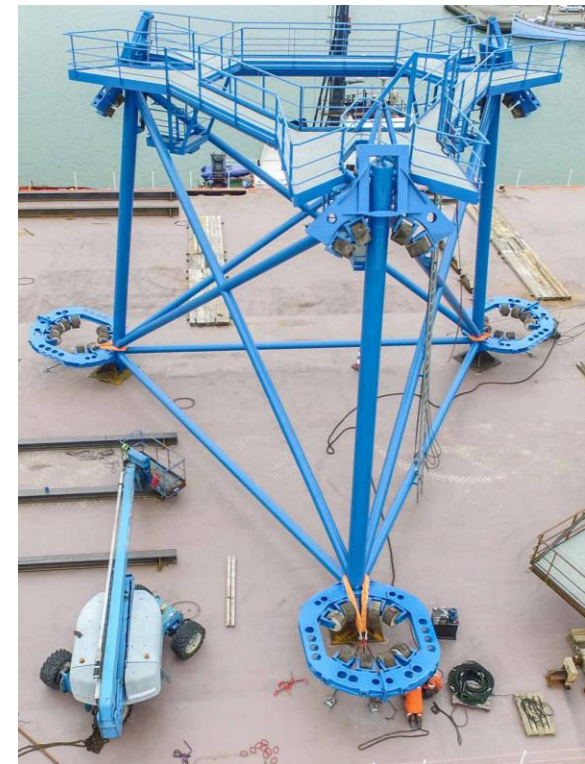

- prefabrication of 270 ton sea fastening for the Borkum Riffgrund O2 Project

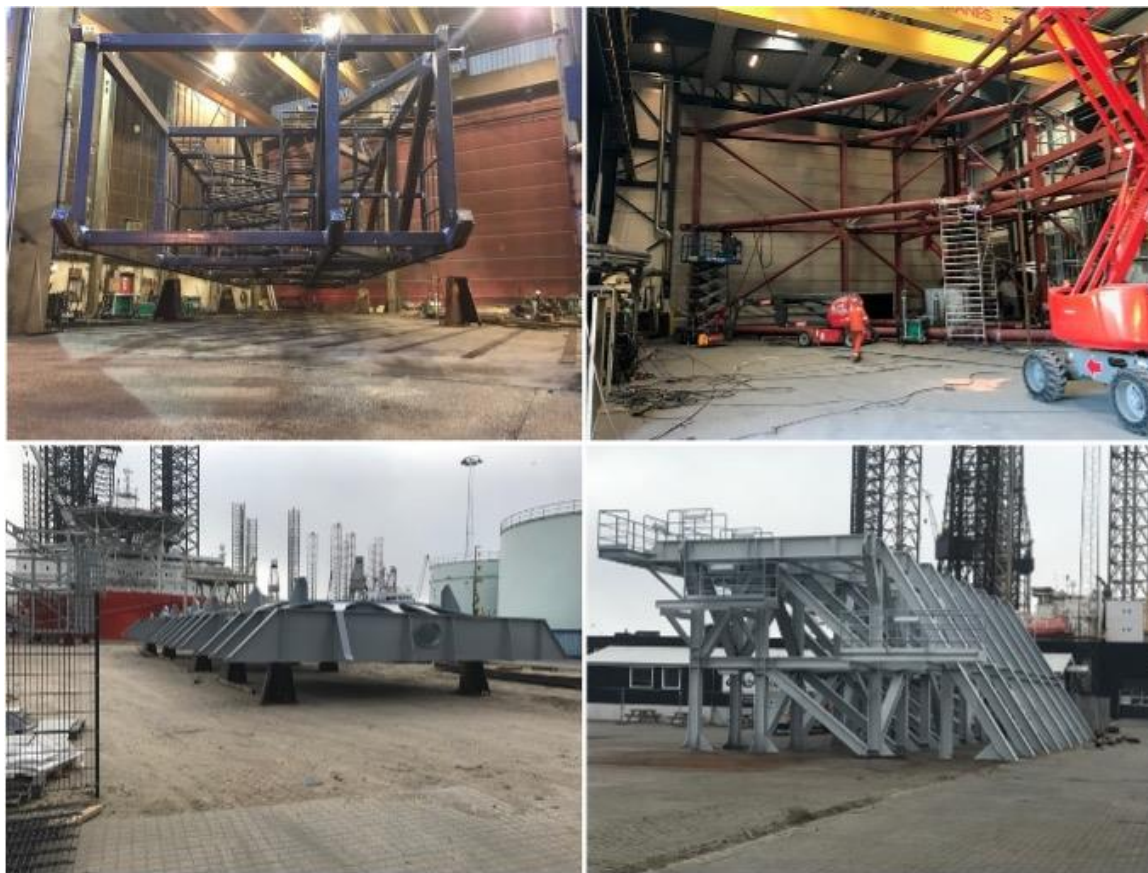

## AARSLEFF- 2017

- prefabrication of PGF & TP lifting tool for the Nisum Bredning Project

## SIEMENS GAMESA- 2017

- prefabrication and mobilization of 850 ton sea fastening for the Galloper Project
